## **Bleeding Disorders Association of South Carolina**

**A Chapter of the National Bleeding Disorders Foundation, member organization of Hemophilia Federation of America, member of Together SC Non-Profits, Member of the Palmetto Health Collective and an investor in the Greenville Chamber of Commerce.**

**You can help us change lives as we reach for a cure, one day at a time!**

**Par for the Clot is so much more than just a great day of golf. It is a deeply-appreciated show of community support to our families and individuals diagnosed with bleeding disorders. The financial contributions from this event provide opportunities for those affected to attend local and national educational conferences, enjoy support groups, attend camps, and to receive financial support for camps, scholarships, and other daily living needs, all free of charge. The tournament allows us to advocate to our state and national leaders for continued support of the treatment of bleeding disorders, ensure the safety of the nation's blood supply, and work to keep insurance and drugs affordable. The Par for the Clot brings together generations of the bleeding disorders community in an activity that everyone can participate while providing a great day on the golf course supporting a wonderful cause! Thank you from our families and all individuals affected.**

## Our Vision...

To be recognized as a leading organization, providing valued services; as ambassadors of public outreach to enlighten and foster an understanding of what matters most to those affected by hemophilia and bleeding disorders; and to be our community's first choice in partnership to achieve their highest potential through empowerment, connection to their community, and being part of the solutions that affect them the most, UNTIL a cure is achieved.

Our mission is to promote awareness, provide education, and offer support to the Bleeding Disorder community. We were able to fulfill 100% of the financial assistance requests that were submitted in 2023. We also need support for our advocacy efforts, promoting policies that promote better access to quality, affordable healthcare for people with chronic conditions like hemophilia and other inheritable bleeding disorders. None of this would have been possible without your support.

## About US

### Tax ID # 23-7400632

Bleeding Disorders Association of South Carolina (BDASC) is a 501(c) 3 non-profit charitable organization which serves over 1000 individuals, including 500+ families in South Carolina, who are diagnosed with all types of rare genetic bleeding disorders. There are an estimated 7,000 identified rare disorders, affecting 1 in every 10 Americans. More than three million Americans have bleeding disorders— such as Hemophilia, von Willebrand Disease, and rare factor disorders that prevent the blood from clotting normally; can result in extended bleeding after injury, surgery, or trauma; can cause internal bleeding which leads to debilitating pain and damage to joints and muscles; and can be fatal if not treated effectively. Currently, there is no cure. BDASC works closely in collaboration with the treatment centers and their staff that care for our community members. As South Carolina's leading resource for adults, children, and families affected by bleeding disorders, BDASC maintains a close relationship with our community. We provide our members the opportunity to network with other families experiencing the same situations, seeking guidance and emotional support, for an often anxiety-ridden and frightening diagnosis. We support our families from the initial diagnosis throughout their lifetime and we are a tight-knit community family. Our greatest gift we can provide to our members is helping them know they will never be alone in their bleeding disorders journey.

## The Impact of a Diagnosis

Imagine receiving news about your health or the health of a loved one that will impact you for the rest of your life. When a family or individual learns that a loved one has a rare bleeding disorder, it is heartbreaking. The picture they have painted for their family's future suddenly changes. Their whole world is turned upside down. Your career, hobbies, where you live, family planning, and many other life decisions are now all affected. Your doctor can prescribe a treatment regimen, but where do you turn for help and support in between office visits? Who has the most relevant experience or practical knowledge to help you navigate life with a rare and life-threatening chronic disorder? It is only with the work of organizations that serve individuals with bleeding disorders like Bleeding Disorders Association of South Carolina, that families and individuals thrive, despite the often difficult situations they must sometimes endure.

## The Need for Your Support

Being part of a community that shares experiential knowledge often means the difference between effectively managing a chronic disorder like Hemophilia or von Willebrand Disease, or being debilitated by it. Patient education, public awareness, support and advocacy for those affected are the principles at the core of our organization. We are Bleeding Disorders Association of South Carolina and we would love to have your support!

The bleeding disorders community is made up of dedicated organizations, chapters, individuals, and volunteers. Regardless if you are new to the community and Bleeding Disorders Association of South Carolina, or someone who has been a part of it for years, your support is crucial as we improve support for families with bleeding disorders. It is because of you, individuals and the companies that support our mission, that we can provide a wealth of support. Dedicated to assisting in the quality of life for those affected by bleeding disorders, we provide educational and support service programs; family, teen and children's camps support; financial assistance and compassionate care; college scholarships; advocacy awareness training and initiatives; local and national educational events and symposiums; support groups; referral services; and research support for advancement in treatment innovation and one day a cure. With your support, you stand with us and give hope to our community. The Bleeding Disorders Association of South Carolina will be stronger because of YOU!

**Changing lives as we reach for a cure one day at a time!**
